Core Subjects and 21st Century Interdisciplinary Themes

- Mastery of core subjects and 21st century themes is essential for students in the 21st century.
- In addition to the core subjects, we believe schools must complement basic competency in core subjects with promoting understanding of academic content at much higher levels by weaving 21st century interdisciplinary themes into core subjects.
- Greenhaven Press, Lucent Books and KidHaven Press series that support 21st century interdisciplinary themes, and core subjects follow:

Information, Media and Technology Skills

- People in the 21st century live in a technology and media-suffused environment, marked by various characteristics, including: 1) access to an abundance of information, 2) rapid changes in technology tools, and 3) the ability to collaborate and make individual contributions on an unprecedented scale. To be effective in the 21st century, citizens and workers must be able to exhibit a range of functional and critical thinking skills related to information, media and technology.
- Greenhaven Press, Lucent Books and KidHaven Press series that support information, media and technology skill development follow:

INFORMATION LITERACY: ACCESS AND EVALUATE INFORMATION GOALS

Greenhaven Press Series for Grades 7-12+

- To help readers assess the viewpoints, the credentials of the authors of the viewpoints are clearly presented
- Readers are exposed to a wide variety of viewpoints that have been drawn from a broad range of sources — books, newspapers, magazines, journals, government documents, pamphlets, speeches, organization newsletters, position papers, and even letters and memoirs

About Greenhaven Press, Lucent Books and KidHaven Press

Greenhaven Press was founded 40 years ago when it launched its flagship series – *Opposing Viewpoints*. Based on the idea that those who do not know their opponent's arguments do not completely understand their own, the *Opposing Viewpoints* series offers divergent points of view on controversial social, political, and economic issues. By using primary sources presented in a pro/con format, the *Opposing Viewpoints* series offers high school students an invaluable tool for conducting research and sharpening their critical thinking skills.

Lucent Books has developed dozens of series covering wide-ranging topics in social issues, biography, history, health, science, music, art and religion. In all of its books, Lucent strives to present complex ideas and events simply, but with depth and objectivity. Primary and secondary source quotes, which enliven the narratives, have become a hallmark of Lucent's many high-quality nonfiction series.

KidHaven Press publishes curriculum-related, nonfiction series for upper elementary students. Written by experienced authors and subject editors and highly illustrated in full color, all titles from KidHaven Press cover topics in a clear yet easy-to-understand manner. Series cover such subjects as biography, environment, health, history, mystery and myth, religion and science.

PARTNERSHIP FOR
21ST CENTURY SKILLS

Gale, part of Cengage Learning, is a member of the Partnership for 21st Century Skills, which is the leading national advocacy organization focused on infusing 21st century skills into education. The Partnership brings together the business community, education leaders and policymakers to define a powerful vision for 21st century education to ensure each child's success as a 21st century citizen and worker. The Partnership and Gale encourage schools, districts and states to advocate for the infusion of 21st century skills into education and provide tools and resources that help facilitate and drive change. www.21stcenturyskills.org
